

July 2023

New Release Announcement

We are delighted to announce CheckMate v1400 is out now,
free to ASP Customers

See our [video highlights](#) for yourself

- Fixing stackup issues faster, at less cost : Origin's new [Digital Assembly Analysis](#) tool helps you fix issues in pre-production R&D when time is money. Use it to cut through the form-orientation-location noise of all the mating parts, identify root causes and specify corrective actions.
- Our video shows how to select the option to **measure complex holes with DimXpert PMI**. There is no option with QIF PMI. If the complex holes are in the QIF, then CheckMate Processes the Automatically.
- See how **CheckMate's GTM supports Composite Tolerances**.
- See a **new function in Point Cloud Metrology** that will create cross sections through your CheckMate Color Maps.
- Watch some **new powerful commands for edited augmented features** (planes and surface points), even editing the UV pattern.
- See how **CheckMate supports the PH-20 'flick mode'**, controlled on a feature-by-feature basis and turned on, on the Output Program screen.
- See how to **view the true probe path of your CheckMate Segment**.
- Our video shows a **new CheckMate command that will create balloon numbers from your DimXpert PMI**. Eliminates ballooning as a separate process that breaks the digital thread.

Misc. Productivity Tools

What Origin's Customers Have to Say

"Wow, that was quick! Excellent service. Many thanks

Matt Willacy/ Howmet Ltd." (May 2023)

Just so you know...YOU'RE THE BEST!!! In all my years in this industry (like 30+) I've NEVER had or heard of this level of response and support with software!! And I've been around.

John C. Morin III

G.P.R. Co.

You are Awesome!!!! You Guys always take care of us!! Thank You!

Kevin Romanowski

Bucher Hydraulics Inc.

"Checkmate technical support is superb it is like the search engine "Google". You ask Cecil a question, literally, I receive a reply most of the times in minutes. I really appreciate Checkmate technical support team"

Riyad Abdel-Ghani

Pilkington North America
